

INNOspace Masters Statistics 2021/22

The INNOspace Masters 2021/22 addressed worldwide companies, SME, start-ups, universities, non-university research institutions and individuals. Overall, 337 participants submitted 153 ideas from 28 different countries. The innovation competition is looking for forward-looking ideas and solutions that are made possible by the transfer of expertise and technology between space and other sectors.

Meet the winners and join us for the awards ceremony, which is part of the INNOspace Masters conference on 5 July 2022.
